Waverley Glen FST300

Free Standing System

Perfect for residential or institutional use, the strong and portable FST300 is the most affordable Free Standing Track system available. Weighing just 21.5Kgs, the FST300's lightweight frame allows for easy assembly. In fact, a single person can assemble the FST300 in less than six minutes without the use of tools. Encompassing a height adjustment feature to accommodate for up to 2400mm, the FST300 fits a wide-range of transfer needs. Its customized roller bag makes it easy to store and convenient for caregivers to transport. The FST300 is perfect for permanent or temporary solutions in residential or home care environments or even as a short-term rental. Best of all, the FST300 requires little to no maintenance.
